ICE MAKER WATER FILTER

Crystal Clear One

(Model CC1)

Up to 600 lbs./Day Cubers

70% of all ice maker problems are caused by poor water quality.
Model CC1 will minimize scale deliming and unreliable
ice maker performance.

BENEFITS

- ✓ Reduce ice maker service costs.
- ✓ No cartridge activation required.
- ✓ Filter can be installed in any position.
- ✓ Sediment filtration.
- ✓ Chlorine reduction.
- ✓ Extend life of ice maker.
- ✓ Protect ice bin and other metal parts in ice maker.
- ✓ Helps ice maker function at full capacity.

systems IV[®]

LOW VOLUME WATER FILTER

An affordable water filter for ice makers up to 600 lbs./day.

A filter improves ice maker efficiency, ice production and reduces ice maker maintenance.

The filter includes:

- 1 Polyphosphate - ideal for controlling low scale forming water.
- 2 Activated Carbon - controls chlorine.
- 3 Filtration - controls suspended particles.
