MANAGED WATER FROM THE METER TO THE DRAIN

QUALITY WATER. QUALITY SERVICE.

Water is a vital part of running a successful business. As part of the 360° of Protection® Program, our managed water filtration and softening helps improve the areas most critical to an operation's success.

ENSURES GUEST SATISFACTION

- ▲ Improves taste and appearance of beverages.
- ▲ Reduces unpleasant odors.
- ▲ Helps prevent inferior carbonation and flat beverages.
- ▲ Improves the look and feel of towels and linens.

MAINTAINS FOOD SAFETY

- ▲ Keeps businesses running smoothly and safely.
- ▲ Protects against tiny, chlorine-resistant parasites.
- ▲ Ensures proper cooking temperatures.

IMPROVES OPERATIONAL EFFICIENCY

- ▲ Helps decrease energy consumption.
- ▲ Reduces expensive service calls and downtime.
- ▲ Increases machine life and performance.
- ▲ Extends the life of fabrics.

WORLD-CLASS SERVICE

- ▲ Products are backed by Ecolab's trusted, experienced and unparalleled service.
- ▲ Automated, six month replacement service – on time, every time.
- ▲ Emergency service 24/7/365.

CONDITIONED WATER AND SUSTAINABILITY

ENERGY

Decreases energy usage and costs by inhibiting formation of scale build-up.

SAFETY

Helps protect guests from harmful micro-organisms and chemicals in water.

WATER

Reduces water consumption by minimizing re-wash of dishes and linens.

WASTE

Reduces environmentally unfriendly plastic bottles.

WATER FILTRATION

Our managed filtration program is customized to your specific water conditions and is backed by Ecolab's world-class service. Managed filtration systems ensure you and your customers enjoy quality water all the time.

BENEFITS OF MANAGED WATER FILTRATION

GUEST SATISFACTION

- ▲ Delivers consistent beverage quality.
- ▲ Reduces off tastes and odors from beverages.
- ▲ Helps reduce bitter taste in coffee.
- ▲ Improves clarity of ice.

OPERATIONAL EFFICIENCY

- ▲ Helps prevent scale build-up and corrosion.
- ▲ Ensures accurate and efficient brix ratios.
- ▲ Helps reduce expensive service calls and downtime.

filterchoice.com

WORLD-CLASS SERVICE

Ecolab representative will recommend the right water filtration solutions for your operation.

- ▲ Automated, six-month filter replacement service – on time, every time.
- ▲ Emergency service 24/7/365.

FRESH₂O[®] MODULAR FILTRATION

CUSTOMIZED SYSTEM to meet your current and future needs.

REDUCED RISK OF CLOGGING with patented technology provides 3x the dirt holding capacity of standard carbon blocks.

DECREASED DOWNTIME through sanitary quick-change filters.

REDUCED WASTE and increased stability through reusable stainless steel housings.

CONTINUOUS WATER FLOW provided by bypass plugs on every module.

FRESH₂O[®] FILTRATION CAPSULE

MINIMAL UPFRONT COST with installation, service and hardware included.

FITS IN TIGHT SPACES with small 19"x8" footprint.

MULTIPLE APPLICATIONS including hotel floor ice machines, bar gun, post-mix, and specialty beverage stations.

VERSATILE INSTALLATION with quick disconnect ball valves that adapt to any plumbing configuration.

INNOVATIVE FILTRATION TECHNOLOGY combines a high flow-rate with 6,000 gallons of capacity in one compact filter.

REPLACEMENT FILTERS*

EVERPURE[®]
Same product. Backed by Ecolab service. NSF certified.

SELECTO[®]
Engineered to fit existing Selecto systems.

CUNO[®]
Engineered to fit existing Cuno systems.

*See pages 20-23 for ordering information

POST-MIX

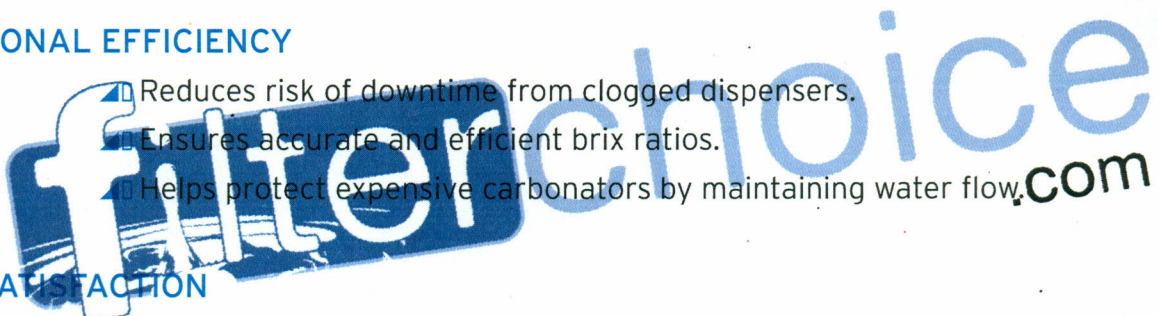

FOUNTAIN BEVERAGES FLOW FREELY WITH HIGH QUALITY WATER

Fountain beverages made up of 80% water represent a high margin item that is susceptible to poor water quality. Filtered post-mix systems deliver sparkling, great tasting soft drinks using the appropriate amount of purified water.

As part of the 360° of Protection® Program, water filtration helps improve:

OPERATIONAL EFFICIENCY

- ▣ Reduces risk of downtime from clogged dispensers.
- ▣ Ensures accurate and efficient brix ratios.
- ▣ Helps protect expensive carbonators by maintaining water flow.

GUEST SATISFACTION

- ▣ Delivers consistent beverage quality.
- ▣ Reduces off tastes and odors from beverages.
- ▣ Helps ensure proper carbonation.

SIZING CHART

CARBONATORS	RECOMMENDED SYSTEM	PART NO.*
1	SINGLE MODULAR SYSTEM	9320-3885
2	TWIN MODULAR SYSTEM	9320-3886
3	TWIN MODULAR SYSTEM	9320-3886
4	TRIPLE MODULAR SYSTEM	9320-3887
5	QUAD MODULAR SYSTEM	9320-3888

DID YOU KNOW?

Selecting the right filter has never been easier! A sizing chart has been provided in each section to help you select the right system for your unique needs.

*Filter cartridges sold separately

ICE MACHINES

IMPROVE THE APPEARANCE AND TASTE OF ICE

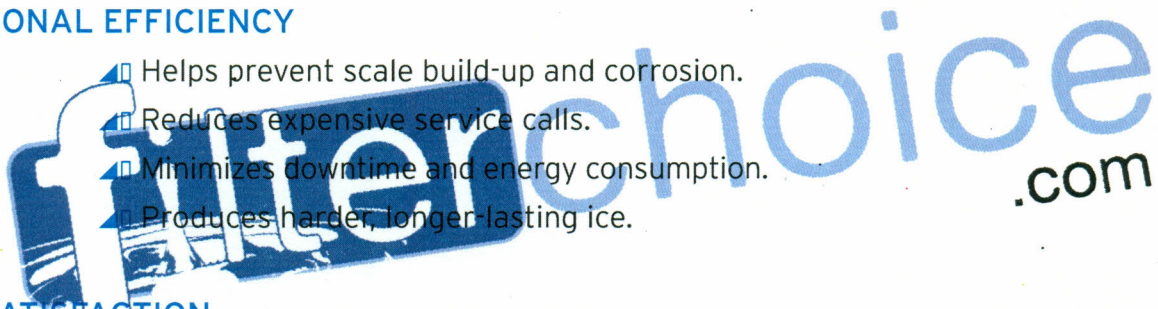

Water filtration protects ice machines to reduce the most common service calls and deliver fresh, clean-tasting ice every time.

As part of the 360° of Protection® Program, water filtration helps improve:

OPERATIONAL EFFICIENCY

- □ Helps prevent scale build-up and corrosion.
- □ Reduces expensive service calls.
- □ Minimizes downtime and energy consumption.
- □ Produces harder, longer-lasting ice.

GUEST SATISFACTION

- □ Improves clarity of ice.
- □ Reduces off tastes and odors from ice.
- □ Keeps ice from melting too quickly.

SIZING CHART

CAPACITY (LBS/DAY)	RECOMMENDED SYSTEM	PART NO.*
UP TO 800	SINGLE MODULAR SYSTEM	9320-3885
801 - 1,600	TWIN MODULAR SYSTEM	9320-3886
1,601 - 2,400	TRIPLE MODULAR SYSTEM	9320-3887
2,401 & ABOVE	QUAD MODULAR SYSTEM	9320-3888

DID YOU KNOW?

Sizing filters for ice machines can be done based on the model number. Ice machine production capacity (lbs/day) is generally embedded in the model number. For example, Hoshizaki model F-450MAH-C is capable of producing 450 lbs of ice per day.

*Filter cartridges sold separately

SPECIALTY BEVERAGES

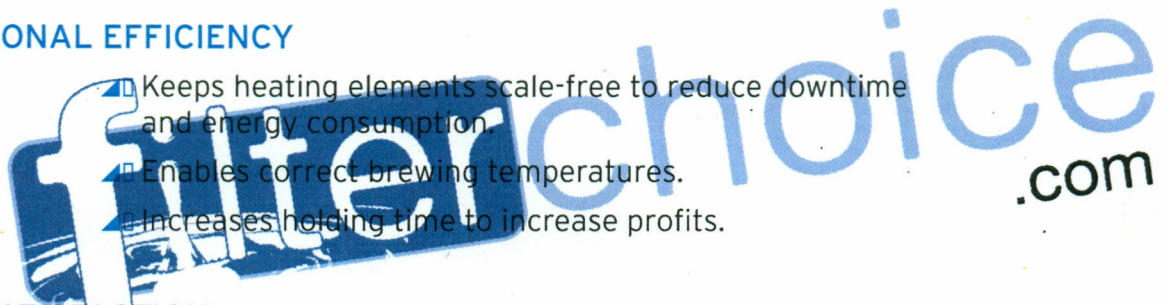

THE FOUNDATION OF RICH FLAVOR

Water content can be as high as 98% in specialty beverages such as coffee, tea, espresso, juice and hot chocolate. Filtration helps improve the quality and taste of beverages, while protecting costly equipment.

As part of the 360° of Protection® Program, water filtration helps improve:

OPERATIONAL EFFICIENCY

- ▣ Keeps heating elements scale-free to reduce downtime and energy consumption.
- ▣ Enables correct brewing temperatures.
- ▣ Increases holding time to increase profits.

GUEST SATISFACTION

- ▣ Helps reduce bitter taste in coffee.
- ▣ Improves clarity of teas and other beverages.
- ▣ Improves overall beverage quality.

SIZING CHART

BEVERAGE DISPENSERS	RECOMMENDED SYSTEM	PART NO.*
SINGLE	IN-LINE FILTER	9320-1382
MULTIPLE	SINGLE MODULAR SYSTEM	9320-3885

DID YOU KNOW?

Hard water causes scale build-up leading to higher energy consumption and decreased equipment life. To inhibit scale formation, use the Modular Scale Stick System for water hardness up to 12 grains. Use the softening capsule for hardness beyond 12 grains.

*Filter cartridges sold separately

DRINKING WATER

BOTTLED WATER QUALITY AT FILTERED PRICES

Drinking water in any establishment must maintain purity from the smallest microorganism to its outward appearance. Managed water filtration furthers sustainability by reducing plastic bottle waste and helps make a sparkling first impression.

As part of the 360° of Protection® Program, water filtration helps improve:

OPERATIONAL EFFICIENCY

- Eliminates costly bottled water and related waste.
- Reduces extra flavor-enhancing costs such as lemons.

GUEST SATISFACTION

- Improves taste and clarity while removing odor.
- Ensures a great first impression.

STEAMERS

GO EASY ON STEAM EQUIPMENT

Steamers run more efficiently on filtered and conditioned water. Conditioned water helps protect your equipment and reduce service calls.

As part of the 360° of Protection® Program, water filtration helps improve:

OPERATIONAL EFFICIENCY

- ▣ Helps keep heating elements free of scale.
- ▣ Reduces downtime and energy consumption.
- ▣ Reduces maintenance, service calls and heating element burnout.
- ▣ Minimizes corrosion and pitting due to chlorine in the water.

HARD WATER = HIGHER ENERGY COSTS

Hard water causes scale build-up on heating surfaces, resulting in higher energy costs. Ecolab has two effective solutions.

WATER SOFTENING SYSTEMS

- ▲ Removes hardness minerals from water.
- ▲ Supports any range of water hardness.
- ▲ Whole-house solution.

* Refer to pages 16-19 for more information on softening.

SCALE CONTROL SYSTEMS

- ▲ Chemically conditions hardness minerals to prevent scale formation.
- ▲ Supports water hardness up to 12 grains/gal.
- ▲ Point of use solution.

SCALE CONTROL SYSTEMS*	SUGGESTED APPLICATION
Modular Scale Stick System	Ice machine, coffee machine, steamer (boiler type)
SCS-50, SCS-100, SCS-500	Dishmachines

*See page 24 for ordering information

WATER SOFTENING

As part of the Ecolab 360° of Protection Program®, managed water softening helps you improve in areas most critical to your operation's success. Our water softening systems are backed by the industry's leading team of experts to bring you the most worry-free softening program available today.

BENEFITS OF MANAGED WATER SOFTENING

GUEST SATISFACTION

- ▲ Prevent spotting, streaking and filming on wares.
- ▲ Improve the look and feel of towels and linens.
- ▲ Eliminate mineral staining on sinks, toilets and fixtures.
- ▲ Leave skin softer and cleaner.

OPERATIONAL EFFICIENCY

- ▲ Boost the efficiency of gas and electric water heaters.
- ▲ Increase the lifespan of equipment.
- ▲ Extend the life of fabrics.
- ▲ Prevent costly damage caused by clogged pipes.
- ▲ Decrease maintenance bills.

titerchoice.com

WORLD-CLASS SERVICE

- ▲ Single point of accountability for improved results.
- ▲ Emergency service 24/7/365.
- ▲ Worry-free lease includes professional installation and maintenance.
- ▲ Routine system monitoring from your Ecolab representative.

WORRY-FREE LEASE

A well-maintained water softener will save you significant money on equipment repairs and energy costs. Our worry-free water softening lease program allows you to focus on running your business.

RESPONSIBILITY	ECOLAB	CUSTOMER
Recommend appropriate system	✓	
Professional installation	✓	
System start-up and training	✓	
Maintain desired salt levels in brine tank		✓
Monthly system monitoring	✓	
Regular maintenance	✓	
Emergency service 24/7/365	✓	

TWIN TANK SYSTEMS

Provides continuous soft water supply and up to a 30% salt savings.

SINGLE TANK SYSTEMS

Metered system delivers the ultimate in simplicity for economy and space savings.

WATER SOFTENING SAVES UP TO 29% ENERGY

Over time scale builds up on the heating surface resulting in increased energy consumption. A study by New Mexico State University concluded that water heaters using soft water require up to 29% less energy.

SYSTEM SPECIFICATIONS

SYSTEM FEATURES

- ▲ Reliable Fleck™ technology provides years of trouble-free operation.
- ▲ Meter-initiated regeneration minimizes salt and water costs.
- ▲ Advanced electronic controls for diagnostics and troubleshooting.
- ▲ Blending valve bypasses small amounts of hard water to reduce corrosion and etch.
- ▲ Sampling port helps verify proper softener operation.
- ▲ Fiberglass resin vessels eliminate worries about corrosion.
- ▲ High-quality resin provides long life and maximum operating efficiency.
